Sarasota Anesthesiologists, P.A. is a group of highly trained, board certified, physician Anesthesiology consultants and CRNAs who are dedicated to providing the highest quality patient care services to our community.

Sarasota Anesthesiologists provides a wide array of anesthesia services including anesthesia for general, vascular, neurosurgical, orthopedic, pediatric, urologic and gynecological surgery. We support the Sarasota Memorial Heart and Vascular Institute by providing anesthesia services for open heart surgery, including minimally invasive and robotic valve surgery, off-pump coronary artery bypass grafting, Maze procedures, implantation and testing of Implantable Defibrillators (ICDs) and pacemakers as well as for transesophageal echocardiography. Our anesthesia care team also provides anesthesiologist supervised safety and comfort for patients having a procedure in Sarasota Memorial's Endoscopy Center. We provide 24 hour compassionate pain relief for expectant mothers and anesthesia for cesarean deliveries. Last, but not least, we provide an acute pain service for postoperative pain using peripheral nerve blocks and epidural anesthesia.

3. Print out the “Proof of Viewing” certificate – or simply take a screen shot on your phone.
4. Bring the certificate/phone with you when you come to deliver.
