

Sarasota Memorial Pain Medicine Program

Medicare Outpatient Coinsurance Notice

To our Medicare patients:

Thank you for choosing the Pain Medicine Program at Sarasota Memorial Healthcare System to be your provider of choice. Medicare regulations require us to provide you with a notice of your hospital outpatient coinsurance responsibility for the hospital outpatient service(s) you will receive.

On the reverse side of this letter is a list of the most common Medicare hospital outpatient coinsurance amounts for procedures performed at this outpatient location. Please review the list to determine the hospital outpatient coinsurance amount for your scheduled visit/procedure.

Sometimes, because the exact type and extent of care you will receive is not known in advance, we will not be able to provide you with an exact estimate of your hospital outpatient coinsurance amount. Your actual liability will depend upon the actual services furnished. We are required to advise you that, because the service is furnished by an outpatient department of Sarasota Memorial Healthcare System, you will incur a hospital coinsurance responsibility that you would not incur if the services were furnished in an entity that is not hospital-based.

The hospital outpatient coinsurance liability is in addition to any Medicare coinsurance liability for physician/professional services provided in conjunction with the hospital outpatient services.

All billing is handled through the Sarasota Memorial Hospital Patient Financial Services Department. Please call (941) 917-1541 to speak with a customer service representative if you have any questions.

I have read the foregoing and understand that I will incur a financial responsibility to Sarasota Memorial Hospital for Medicare hospital outpatient coinsurance as permitted by law.
