

First Physicians Group Post-Acute Services

Experienced, Compassionate Patient-Centered Care

What is Post-Acute Care?

Post-acute care provides health care to patients after and sometimes instead of a hospital stay. From long-term care and skilled nursing to assisted living facilities, First Physicians Group post-acute care is here to oversee your progress or the progress of your loved one. Our goal is to give our patients meaningful quality of life with a sense of well-being and dignity.

The First Physicians Group Difference

Sarasota Memorial has earned the nation's highest quality and safety ratings, exceeding all hospitals in our region. As part of the health care system, First Physicians Group Post-Acute Services is proud to provide this exceptional level of care.

We believe informed patients make the best decisions so we encourage you to compare providers' services, as well as their quality and safety records. As our patient, you'll benefit from:

- ▶ **Established Partnerships.** Sarasota Memorial has served the community for over 90 years and today is one of Florida's largest and most respected public hospital systems. With 819 beds and multiple advanced specialties, it is consistently rated among the top hospitals in the nation.
- ▶ **Expedited Care.** Our affiliation with Sarasota Memorial enables us to access and seamlessly transmit your electronic health record for direct admission, should you need it, and keep your medical team current with your most recent care.
- ▶ **Expert Medical Team.** From primary to specialty care, First Physicians Group has over 20 years of experience serving patients and we look forward to providing your post-acute care.
- ▶ **Patient-Centered, Family-Focused Providers.** We want you to have the best, safest health care experience. Our best results are achieved by open communication with you and your family so everyone works together on your individual care plan. This is how we continue to keep our patients out of the hospital and in a more comfortable setting.

How Do You Reach Us?

Once you arrive at the facility, just let your nurse or caregiver know you would like to be seen by the First Physicians Group Post-Acute team and we will be notified to see you during our rounds.

Who Pays for Post-Acute Care?

First Physicians Group of Sarasota Memorial bills medical insurance, including Medicare, directly as a courtesy to patients. Charges are comparable to fees patients would pay to see a private care physician.

For more information or to arrange for you to be seen by our Post-Acute team, please call (941) 917-7197.
